*TITLE:* Export Certification, Accreditation of Non-Government Facilities

*OMB CONTROL NUMBER:* 0579-0130

*SUMMARY OF COLLECTION:* The Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS) is responsible for preventing plant diseases or insect pests from entering the United States, as well as, the spread of pests not widely distributed in the United States, and eradicating those imported when eradication is feasible. The Plant Protection Act (7 U.S.C. 7701 et. seq.), authorizes the Department to carry out this mission. In addition to its mission, APHIS provides export certification services to ensure other countries that the plants and plant products they are receiving from the United States are free of plant diseases and insect pests.

*NEED AND USE OF THE INFORMATION:* The accreditation process requires the use of several information activities to ensure that nongovernment facilities applying for accreditation processes the necessary qualifications. APHIS will collect information for applications submitted by operator/owner of a non-government facility seeking accreditation to conduct laboratory testing or phytosanitary inspection. The application should contain the legal name and full address of the facility, the name, address, telephone and fax numbers of the facility's operator, a description of the facility, and a description of the specific laboratory testing or phytosanitary inspection services for which the facility is seeking accreditation. If these activities are not conducted properly, APHIS export certification program would be compromised, causing a disruption in plant and plant product exports that could prove financially damaging to U.S. exporters.
